re: Oklahoma City

Sirs:

You will not find in your newspaper, on your television or radio any balanced story about the terrorist attack in Oklahoma City.

No media person discusses one of the major candidates for responsibility, the Feds.

- 1) Read the book "Final Judgment", Michael Collins Piper. His findings were that the U S CIA was a key player in the assassination of President Kennedy on 11-23-63.
- 2) Feds did Waco. Of the some 100 assassinated there 17 were children under 9 years and 11 of those 17 had not yet reached their 4th birthday. J Reno, W Clinton!
- 3) Randy Weaver - Ruby Ridge, Idaho. Assassination of his wife and son.
- 4) Gordon Kahl about 1985 in Arkansas or Kansas, assassinated by Feds. Son Yori still in Fed lock up for being Gordon's son.
- 5) Trail of blood, deaths and killings following Clinton since he took office - read Nick Guarino.
- 6) Oklahoma City bombing in some ways reminds me of how Hitler ascended to power in Germany in 1933.
- 7) Concrete, steel reinforced buildings were still standing in Hiroshima after the atomic bomb in 1945. We've all seen pictures of them since.
- 8) FERTILIZER? To my knowledge there is no known fertilizer, no matter how it is packaged that could rip out 12 to 24 inch steel "I" beams and 1.5 inch steel reinforcing bars that far into the building.

It is well established that the elitist controllers at the federal level are looking for any excuse they can create to try to persuade Congress to further erode the protections afforded to the free people in this country in and by the U S Constitution and its Bill of Rights. Any "emergency" would do!

How many have read "War and Emergency Powers", Dr Gene Schroder, Campo, Colorado?
